

ABLOY® DOOR HANDLES
ARCHITECTURAL DESIGN

Ideas and innovations - FINNISH DESIGN

Design means the appearance, feel, ease of use and, above all, functionality of a product. It involves an understanding of needs, innovation and the very best traditions. We want to make everyday life smoother and more secure for you.

The ABLOY DOOR HANDLES bring a whole host of styles to your living environment: modern, traditional, youthful – whatever you desire. Small details add the finishing touches to an overall harmonious look. Abloy's range includes handle models designed by its own in-house design department as well as handles by top Finnish designers, such as Alvar Aalto, Harri Koskinen and Timo Sarpaneva.

Window handles	20
Escutcheons, coverplates and turning knobs	21
Quick handle selection	22

SURFACE FINISHES

When you're selecting a surface finish and material for a handle, we recommend taking into account not only the overall appearance of the space, but also the operating conditions of the handle and the amount of wear it has to withstand.

OUR RANGE INCLUDES

- Brass handles which we recommend for use in exterior doors in residential buildings, in exterior doors, in public spaces and high traffic doors.
- Stainless steel handles which are suitable for use in both exterior and interior doors in residential buildings, for example.
- Aluminium handles for interior doors in public spaces.
- Zinc handles which are suitable for light interior doors.

To make it easier to find handles in the range, we have created a quick selection table which you can use to check the features available with your favourite handle.

Antimicrobial **ABLOY® ACTIVE**

ACTIVE-coating now on all painted door fittings!

ABLOY ACTIVE kills 99% of the most common bacteria and is also effective in combating MRSA.

The products in this brochure are available in all RAL colour chart shades to special order.

ABLOY® EXTERIOR AND INTERIOR DOOR HANDLES

ABLOY® DOMUS 12

NEW!

Design

Harri Koskinen

A long-term favourite updated with a new design. Also fits for ABLOY CONTROL+ home central locking. The inside handle is an ABLOY POLAR handle or alternatively any other handle you'd like.

ABLOY® DUETTO 8

Design

Janne Loiske

This traditional and stylish DUETTO handle is a combination of classic and distinctive design. The handle is equipped with color panel which can withstand sub-zero temperatures and UV radiation. Panel color options: brown, red, green, blue, light and dark grey.

Our range of exterior and interior door handles includes products suited to both classic and modern design. Strong return springs facilitate the opening and closing of the door and help to keep the handle in the correct position.

Did you know that..

ABLOY handles can be installed anywhere, regardless of the door thickness?

ABLOY® ONCUT 5

Design
Pasi Pänkäläinen

This extremely discreet and elegant handle is a pleasure to look at and use. The handle is suitable for use in public and residential buildings.

ABLOY® FORUM 4

ABLOY® FORUM 4

ABLOY® HALTI

Interior door handles are smaller and more delicate handles than their exterior counterparts, and are designed specifically for interior use.

These door handles are made of zinc, which is especially suitable for indoor use. Our wide range of interior door handles also includes handles made from other materials, making for a versatile range of design solutions.

ABLOY® TOILET AND BALCONY HANDLES

ABLOY® TOILET HANDLES

- ! Choose a toilet handle made from brass or stainless steel from our product range. You can check availability using the quick selection table on page 22.

When you want an easy and effortless solution for locking your toilet door, we recommend an ABLOY toilet handle. Turn the handle to the upright position and the door is locked - simple as that ABLOY 2025 lock case can be used with the toilet handle.

ABLOY® DH83

- ! Select handles for both sides or simply an inside handle. The espagnolette handle is available in zinc or brass.

These special handles have been designed for doors and windows with an embedded espagnolette that closes the upper and lower part of the door or window. These espagnolettes are typically used in balcony, garden or backyard doors. Since the handles are bent to the side, there is sufficient elbow space for doors which open outwards.

CONVENIENT EXIT SOLUTION

Panic bar solution keep the door closed and locked from the outside but allow for hands-free, convenient exit from the inside. ABLOY PANIC BARS are tested clearly above requirements of the EN 1125 standard.

Panic bars can be used with either single or double door solutions and with mechanical or electromechanical lock cases.

The panic bar rail surface finish is stainless steel and the rail's standard length is 1150mm. Panic bars are now available in ABLOY COLORS with ACTIVE-coating!

EXIT SOLUTION FOR SCANDINAVIAN RANGE

PBE001 for wooden, metal or narrow stile doors.

The outside lever handle must be selected separately.

PBE002 for wooden and metal doors.

Includes an external anti-burglar plate.

PBE003 for narrow stile doors.

Includes an external anti-burglar plate.

The panic bar rail surface finish is Rt satin, and the rail's standard length is 1,150 mm. Surface finishes: Chrome, satin, and brushed nickel

EXIT SOLUTION FOR DIN RANGE
